- (d) Identification of the site type and location within the PAMS network design for each station as defined in appendix D to this part except that during any year, a State may choose to submit detailed information for the site scheduled to begin operation during that year's PAMS monitoring season, and defer submittal of detailed information on the remaining sites until succeeding years. Such deferred network design phases should be submitted to EPA for approval no later than January 1 of the first year of scheduled operation. As a minimum, general information on each deferred site should be submitted each year until final approval of the complete network is obtained from the Adminis-
- (e) The sampling and analysis method for each of the measurements.
- (f) The operating schedule for each of the measurements.
- (g) An  $O_3$  event forecasting scheme, if appropriate.
- (h) A schedule for implementation. This schedule should include the following:
- (1) A timetable for locating and submitting the AIRS site identification form for each scheduled PAMS that is not located at the time of submittal of the network description;
- (2) A timetable for phasing-in operation of the required number and type of sites as defined in appendix D to this part; and
- (3) A schedule for implementing the quality assurance procedures of appendix A to this part for each PAMS.

[58 FR 8468, Feb. 12, 1993, as amended at 64 FR 3035, Jan. 20, 1999]

### §58.42 PAMS approval.

The PAMS network required by \$58.40 is subject to the approval of the Administrator. Such approval will be contingent upon completion of each phase of the network description as outlined in \$58.41 and upon conformance to the PAMS network design criteria contained in appendix D to this part.

# § 58.43 PAMS methodology.

PAMS monitors must meet the monitoring methodology requirements of

appendix  $\boldsymbol{C}$  to this part applicable to PAMS

#### §58.44 PAMS network completion.

- (a) The complete, operational PAMS network will be phased in as described in appendix D to this part over a period of 5 years after;
  - (1) February 12, 1993; or
- (2) Date of redesignation or reclassification of any existing  $O_3$  nonattainment area to serious, severe, or extreme; or
- (3) The designation of a new area and classification to serious, severe, or extreme  $O_3$  nonattainment.
- (b) The quality assurance criteria of appendix A to this part must be implemented for all PAMS.

#### § 58.45 PAMS data submittal.

- (a) The requirements of this section apply only to those stations designated as PAMS by the network description required by §58.40.
- (b) All data shall be submitted to the Administrator in accordance with the format, reporting periods, reporting deadlines, and other requirements as specified for NAMS in §58.35.
- (c) The State shall report NO and  $NO_{\rm X}$  data consistent with the requirements of §58.35 for criteria pollutants.
- (d) The State shall report VOC data and meteorological data within 6 months following the end of each quarterly reporting period.

## § 58.46 System modification.

- (a) Any proposed changes to the PAMS network description will be evaluated during the annual SLAMS Network Review specified in §58.20. Changes proposed by the State must be approved by the Administrator. The State will be allowed 1 year (until the next annual evaluation) to implement the appropriate changes to the PAMS network.
- (b) PAMS network requirements are mandatory only for serious, severe, and extreme  $O_3$  nonattainment areas. When any such area is redesignated to attainment, the State may revise its PAMS monitoring program subject to approval by the Administrator.
